

## GEOGRAPHIC DIVISION OF FINNISH HUMANITARIAN AID

Humanitarian aid channelled through UN specialised agencies, the Red Cross and Finnish organisations

For a medium-sized donor country, such as Finland, the best means to exert influence is to allocate multi-annual core funding for humanitarian organisations. The selection of targets of country- and region-specific support is based on the recommendations given by UN organisations and the International Red Cross and Red Crescent Movement. Finnish organisations are granted funding for the implementation of humanitarian projects.
